

Minutes

LSM Council Meeting
12-04-2018, 5pm, B03.045

Participants:

Jasmin, Sebnem, Yu-Kai, Kristina, Fabian, Giacomo, Jennifer

Evaluation Student Council

This is confidential and will not be made public

Evaluation Interview week

The LSM council presentation right before the poster session of the interview week went very well. All new students were present. However, this was the last LSM interview week. New students can now apply for and join the LSM anytime. The LSM Council will contact new students to introduce them in the newsletter but will not give a presentation. Introducing the LSM Council at the AGM will however be maintained.

Evaluation get-together

The last LSM get-together was on 04.04.2018. Many LSM students joined this time, including new students. An email was sent before with a Doodle to also invite the new students. It was suggested to alternate the place. It was decided not to change the day. The get-together will mainly take place after a LSM lecture.

Evaluation Skiing

This could not take place because of the weather. Many students were however interested, therefore it will be organized again.

News from Francisca

This is confidential and will not be made public.

News from the social committee

- The social committee will organize one or two social activity or activities right after the retreat
- The social committee will organize the LSM-Movie-Night (09.05.2018)

LSM Council responsibilities

A LSM Cookbook will be made, which will include all events that were organized and will be organized by the LSM Council. The cookbook will also include evaluations of the events and tasks/responsibilities of the LSM Council.

Update LSM website

The council page was updated recently by Yu-kai. He is also working on updating the Google map, the publication list and the alumni page.

A portal that is called BioAlumni is available now and contains a special page for LSM students (on the website of the Faculty for Biologie). The LSM council will announce that and ask the LSM students to register.

Jasmin will ask Francisca how to contact LSM alumni since they most probably don't have their LMU email anymore.

Update LSM Conference

Many people that were in the group of the LSM-Hackathon will not continue and there are no new people interested in joining the group. Therefore, it was decided not to organize it anymore. Members of INVENT from the MPI are planning to organize a hackathon. Dates of their meetings will be announced to the LSM students for those that are still interested in taking part of the organization.

Extra

- The next Council meeting will most probably take place on another time and day, so that Francisca can join the meeting. Jasmin will make a Doodle to suggest days and times.
- A new date will be picked for the PhD-off-the-Record, jasmin will set a date with Ellie

Action points

Yu-Kai:

- Put the minutes of the last meeting (26.02.2018) on the Council webpage.
- Write text for the LSM cookbook about updating LSM website and send to Jasmin

Jasmin:
