with Jan Brocher (location TBC)

Retreat

22.-24.06.2020

LSM Retreat on the topic "Bioethics"
with speaker Dr. Christian Dürnberger from the University of Veterinary Medicine Vienna
(Studienzentrum Josefstal, Spitzingsee)

MERRY CHRISTMAS AND A HAPPY NEW YEAR!

On the 4th of December we had our Christmas party at a nice Italian place. A lot of people came and we celebrated over pasta, pizza and some drinks. The most fun part of the evening was the Schrottwichteln, where everybody got a gift one never knew one could ever need it!

The students council says thank you to LSM and especially to Nadine: We appreciate the beautiful LSM-green pullovers that we got as a Christmas gift! We will wear them with pride! Thank you so much!

Alumni Interview

With this series, we will give an insight into the daily professional life of our alumni after graduating from LSM. We are also asking them about the benefits they gained during their time in LSM and their recommendations for the current students.

We hope this will give you some inspiration for your time in the LSM and the time afterwards! Should you have more questions to our alumni please do not hesitate to contact the newsletter team!

Dr. Inga Sjuts

Where are you working now? Could you please shortly describe your current position?

I am working at the German Aerospace Center (DLR) as an investment manager. My group - the Central Expenditure Management - is the point of contact for all matters relating to research infrastructure at the DLR. I am supporting the DLR Executive Board in the strategic alignment of the research infrastructure, ensuring that a portfolio of facilities is available that reflects the objectives of DLR's research areas.

How did being part of the LSM help you find or adjust to your current position? How can you apply the experiences gained throughout your doctoral studies?

The LSM supported me in conducting research/soft skill courses and attending international conferences (e.g. Gordon Research Conference in the USA).

Due to the international and interdisciplinary environment, you could think outside the box of your own research. This way of thinking still helps me in my daily job.

What is your general advise for current LSM students?

Try to get involved in a lot of issues and absorb a lot of knowledge. You never know what it's going to be good for.

What is your motto of life?

Everyone is the architect of his own fortune.

LSM council has a new president!

On behalf of the LSM council, I would like to thank Laura for her dedication and continuous efforts to make improvements. She was a great team player and president! I wish her all the best and much success for her future career.

Starting from this year, I will take over the presidency and try to contribute as much as I can!

Şebnem Akbaş
Student Council President

LSM council is looking for new members

The LSM student council represents all graduate students within the LSM. Currently we are 10 members in 5 committees. In our monthly meetings we discuss news concerning the LSM curriculum, organize social activities and keep you all updated with this newsletter. New members are always welcome to the student council any time!
